

CYBEXercise

*Available with optional Personal Entertainment Monitor

The CYBEX CX-445T is a full blown commercial treadmill that won't blow your budget or your floor plan. The robust dual-level design speaks volumes about durability and demonstrates why the IS3 suspension is so comfortable. Its ingenious design provides a wide open running area with an ultra low hood cover in an exceptionally small footprint.

CX-445T Treadmill big performance SMALL SPACE

Features

Compact

The full sized running surface is delivered with an ultra compact footprint that emphasizes the user experience. The elegant low profile hood design provides an unobstructed path for the user's stride which maximizes the usable running area.

Durable

The 3.0 HP motor and high-efficiency PWM controller combined with rugged 3.0" diameter rollers provide exceptionally smooth and reliable operation at all speeds. The waxed-marine hardwood deck is double sided for extended life and needs no external lubrication.

Comfort

Our Intelligent Suspension 3 (IS3) deck suspension system flexes primarily at the point of impact, absorbing shock where it occurs to provide an exceptionally comfortable experience unlike the traditional floating decks which indiscriminately give way and cause instability in a runner's stride. The dual-level design of the base lets you see IS3 at work.

Convenience

The streamlined operation of the display provides direct use of Quick Start and intuitive access to the nine available programs. The Cool Down feature presents a two-minute cool down at the press of the button. The dual water bottle holder and utility tray keep everything at your fingertips.

specifications

Product Number	445T
Dimensions	32" W x 72" L x 61" H (81 cm x 183 cm x 155 cm)
Machine Weight	320 lbs (145 kg)
Running Area	20" W x 60" L (51 cm x 152 cm)
Speed Range	0.5 mph – 11 mph (0.8 kph – 17.6 kph)
Elevation Range	0% – 15%
Programs	Quick Start, Manual, Heart Rate Control (with user selectable target heart rate), Speed Interval 1, Speed Interval 2, Cardio, Weight Loss, Hill Interval, Rolling Hills, Hills and Pike's Peak; programs have 10 levels and control both Incline and Speed
