

CX-445T Treadmill

COMPACT COMMERCIAL

The CX-445T is a full blown commercial treadmill that won't blow your budget or your floor plan.

VALUE ENGINEERED

To be compact and affordable. The full-sized running surface is delivered in a compact footprint. Although it is 10" shorter than most commercial treadmills, the CX-445T still provides a 20" x 60" running surface. In addition to an attractive purchase price, the low maintenance costs help make the CX-445T the "value purchase" gyms love.

INTELLIGENT DECK

So smart it matches the runner's stride. Our Intelligent Suspension (IS3) deck is not like traditional floating decks which can cause instability in a runner's stride. The IS3 absorbs the impact of landing where it occurs. It's soft at landing, hard in the middle, and rigid at toe-off to exactly match the body mechanics of a runner. And... the dual level design of the CYBEX 445T lets you see the IS3 at work.

Specifications

Product Number	445T
Speed Range	0.5 – 11 MPH (0.8 – 17.7 kph)
Incline Levels	0 – 15%
Running Area (L x W)	60" (152 cm) x 20" (50cm)
Motor	3 HP continuous duty DC Drive
Dimensions (L x W)	72" (182cm) x 32" (81cm)
Step-up Height	11" (28 cm)
Display	Graphic Display of Profile, Distance, Calories, METs, Pace, Heart Rate; Lower display of Time, Incline & Speed
Programs	8 Standard programs with 10 levels each controlling both Incline & Speed; visit us online for Program details
Heart Rate Monitoring	Wireless and Contact Grips
Connectivity	CSAFE (Fitlinxx certified)
Max User Weight	350 lbs (159kg)
Power	110V, 115V, 208V-220V, 230V
Compliance	FCC, ETL listed to UL 1647, EN, CE, ASTM, CSA

EASY TO USE

Even without an instructor. The streamlined operation of the display provides direct use of Quick Start and intuitive access to the nine available programs. The Cool Down feature presents a two-minute cool down at the press of the button. The dual water bottle holders and utility tray keep items users rely on right at their fingertips.

COMMERCIALLY DURABLE

The CX-445T is built with solid steel construction that gives it the same sturdy feel as the more expensive models. The 3.0 HP motor combines with rugged 3.0" diameter rollers to provide exceptionally smooth and reliable operation at all speeds. The waxed-marine hardwood deck is double sided for extended life and needs no external lubrication.
