

# 750T Treadmill

## TOP OF THE LINE

The CYBEX 750T treadmill is the ultimate effective and efficient workout for members while club owners get a new level of reliability and performance. Meet the new standard for treadmills – the CYBEX 750T.

## STRONG & POWERFUL

**For the most demanding users.** A powerful 6 HP brushless AC motor makes the 750T treadmill a durable machine that stands up to the harshest commercial environment. Accommodating users up to 400 lbs (182 kg), the 750T has a speed range up to 15.6 mph for serious runners.

## PREMIUM DETAILS

**Details make this the BMW of treadmills.** A built-in fan is standard (and staying cool means a longer workout). The display is digital for easy instruction and feedback and the 10-key keypad lets you get started faster. A concealed power cord exposes only the amount of cord needed to reach the outlet. The optional Personal Entertainment Monitor with made-for-ipod compatibility turns itself off to save energy and prolong monitor life. Details... but they all add up to the industry's premium treadmill.

## Specifications

<b>Product Number</b>	751T
<b>Speed Range</b>	0.5 – 15.6 MPH (0.8 – 25 kph)
<b>Incline Levels</b>	-3% – 15%
<b>Running Area (L x W)</b>	62" (157cm) x 22" (55cm)
<b>Motor</b>	6 HP (peak) Brushless AC Drive
<b>Dimensions (L x W)</b>	80" (203cm) x 34" (86cm)
<b>Step-up Height</b>	11.5" (29 cm)
<b>Display</b>	Large LED Display of Profile; Message bar display of Distance, Calories, Calories/hr, METs, Pace, Heart Rate; Lower display of Time, Incline and Speed
<b>Programs</b>	9 Standard programs with 10 levels each; Plus 9 custom programs & 6 fitness test programs; <b>visit us online for Program details</b>
<b>Heart Rate Monitoring</b>	Wireless and Contact Grips
<b>Connectivity</b>	Dual CSAFE connectors (Fitlinxx certified)
<b>Max User Weight</b>	400 lbs (181kg)
<b>Power</b>	110V, 115V, 208V-220V, 230V
<b>Compliance</b>	FCC, ETL listed to UL 1647, EN, CE, ASTM, CSA

## BIGGER RUNNING AREA

**In a smaller footprint.** With a spacious 62" x 22" running area and a compact overall area of 80" x 34", the 750T has a smaller footprint than its competition but delivers more running space. Club owners love the 750T treadmill because members have more room to run and the club has more room for members.

## INTELLIGENT DECK

**Built smart to avoid jarring the back.** The deck of the 750T is soft at landing, hard in the middle, and rigid at the toe-off, to exactly match the body mechanics of a runner. To dampen the shock effect, we use an advanced-technology elastomer – we call it the IS3 Intelligent Suspension System, and only CYBEX has it. Our competitors soften their treadmills' entire deck causing a "trampoline" effect that can actually lead to injury.
